NEAT
CUTTING
OIL

270

Heavy (ISO 46) EP cutting oil

ELITE 270 is a heavy (ISO 46), active, non-emulsifying, high additive EP cutting oil for use on ferrous metals, stainless and nickel/chrome steels.

Formulated for use in:

- Drilling
- Reaming
- Tapping
- Boring

Applications

- This product is mainly confined to uses where a high viscosity oil is required. Pipe threading by hand or machine are typical applications.
- ELITE 270 can also be used on stainless and nickel/chrome steels. It is suitable for machining steels in various types of lathes – automatics, turrets and hand screw machines.
- Being high in additive it is generally used on heavy duty operations such as gear cutting, broaching, turning, threading and tapping.

Sizes

- 500ml
- 5L

Typical Physical Characteristics

Property	Property Typical Value
Density, kg/L	0.892
Colour	Above 5.0
Kinematic Viscosity at 40°C, cSt	42.9
Flash point (PMCC) °C	215 Typical

NOTE: Values stated herein are typical and do not represent a specification.
