

euromarc®
CRAFTSMAN

HALF FACE
 RESPIRATOR **710** SERIES

Features:

- Certified to AS/NZS 1716 : 2012
- Advanced soft silicon mask for a smoother feel and flexibility, to give more comfort and protection over long term use.
- Multi-fit, 3 point bayonet filter connection enables different type of filters to attach.
- Low profile design for better view, able to use with eye wear and under helmet.
- Sizes: Small, Medium & Large.

Advanced soft silicon material

Smoother feel and more flexible to conform to the face, providing better comfort and seal.

Bayonet type filter connection

Easy breath twin filters design. Multi-fit attachment system.

Low profile design

Maximises field of view. Able to use with eye wear and welding helmets.

Breathe easy silicon valve

Quick release air movement. Downward exhale airflow.

4-point harness

Balanced, comfort fit to reduce tension and pressure points. Easy adjustment strap length.

Fixed or Drop-down system

Easy to put on, and remove.

FILTERS

PARTICULATE FILTER GP3 718

Features:

- Particulate protection, including nuisance level organic vapours and acid gas.
- Welding fumes, grinding, mist and dust.

GAS/VAPOUR FILTER ABEK 719

Features:

- Protection against organic (A) and inorganic (B) vapour acid gases (E) and ammonia (K).
- Spraying, painting, cleaning, using/handling hazardous goods.

euromarc® CRAFTSMAN

PARTICULATE FILTER GP3 718

Features:

- Low profile, flexible design for easy use under welding helmets and face shields.
- Multi-fit bayonet connection.
- Particulate protection class P3, and nuisance level organic vapours and acid gases.
- Application: Dust and fumes from sanding, grinding, cutting, polishing, welding fumes and mists.
- P3 - Effectiveness to 99.95% of particles.
- Certified to AS/NZS 1716:2012

AS / NZS 1716 : 2012

GAS/VAPOUR FILTER ABEK 719

Features:

- Unique design for good balance of weight and clear field of vision.
- Low breathing resistance.
- Multi-fit bayonet connection.
- For use with Organic (A) and inorganic (B) vapour acid gases (E) and ammonia (K).
- Application: Painting, spraying, solvents, resin and glues, cleaning and degreasing, using/handling hazardous goods.
- Certified to AS/NZS 1716:2012

AS / NZS 1716 : 2012

PARTICULATE PRE-FILTER P2 713

Features:

- Pre-filters to use with gas and vapour filters 719.
- For P2 particulate protection against dust, mists generated mechanically or thermally.
- Application: Always use with gas filter 719 to protect against particles and clogging by sanding, polishing dust, or paint particles.
- Certified to AS/NZS 1716:2012

FILTER RETAINER CAP 713

To connect pre-filter to main filter.

AS / NZS 1716 : 2012

WELDER'S KIT 710 SERIES

Features:

- Including half face respirator 710.
- Pair of GP3 particulate filters 718.
- Wipes and instructions.
- Reusable, sealable container for storage.
- Certified to AS/NZS 1716:2012
