

Revolutionised - the drill bit.

ELITE Jobber Drill 507

HSS-G DIN338, 130° SPLIT POINT.

- Highest performance, extra wear due to the Gold Hi-molybdenum tool steel, and a special heat treatment, and black oxide finish to help hold the lubrication on the drill.
- State of the art self-centering split point, which makes it easier to use, penetrate with less pressure into the steel. (DIN 1412C).
- 130° point, gives you clean and faster cutting.
- Special cutting lip on fluting for fast removal.
- 3 flats on shanks allow easy positive chuck grip. 5-13mm (1-4.9 standard shank).
- Drills suitable for all hand and machine, for Mild, Cast steels, Alu, and Stainless.
- Packaging 1-8.4mm = 10pcs, 8.5-13mm = 5pcs.
