# WHAT IS QUICKSCAN™?

Introducing QUICKSCAN, Euromarc's customer managed inventory system utilising barcode scanning technology from the convenience of your mobile phone.

Whether you use Kanban, min/max, or some other method to keep track of how much product needs ordering, QUICKSCAN makes it quick and easy to scan and order what you need.

## HOW IT WORKS

1

### SET-UP

We'll help you get set up with bin boxes and barcodes for the products you want to include on your shelves.

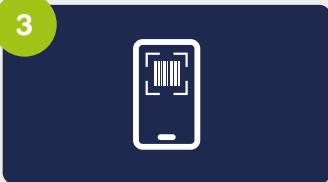

2

### STOCK QTY

Work out your min/max or Kanban quantities for each product (we're happy to assist if you need it)

3

### YOU'RE GOOD TO GO!

Simply use your phone to scan the barcodes, enter quantities, and place your order - too easy!

2 So Quick. So Easy

## HOW TO SCAN

1

Visit [euomarc.co.nz](http://euomarc.co.nz), then tap on the barcode icon in the toolbar.

4

### ADD QUANTITIES

Add the quantities you need.

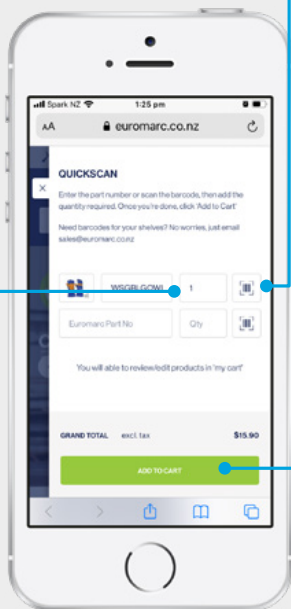

Shop online at [euomarc.co.nz](http://euomarc.co.nz)

2

## BARCODE SCANNER

Tap on the barcode icon to scan product barcodes.

5

## CHECKOUT

Once you've filled out your list, click ADD TO CART to proceed to the checkout.

3

## SCAN BARCODE

Align the blue line on your phone with the barcode.

## WHY USE IT?

We're all busy. Too busy to spend time doing unnecessary tasks, or for things to take longer than they need to.

QUICKSCAN was developed to make ordering quicker and easier, saving you time and money:

- **Orders can be placed right there in the storeroom** - this really speeds things up - just scan, add quantities and submit your order!
- **No more double handling** - orders can be made by the person managing the stock, right then and there. No need to hand it off to office staff to process.
- **Helps make lean processes leaner** - easily keep on top of Kanban, min/max ordering or other lean processes.

## GIVE IT A TRY!

Use the instructions on page one to scan the barcode label below!

### Wanna get set-up?
